VITAL INSIGHT ANNOUNCES RECORD REVENUE GROWTH IN SECOND QUARTER

Vital Insight Closes Key Customers and Partners in Record Quarter

Austin, Texas – July 15th, 2007 – Vital Insight, a Central Texas company offering advanced Governance Risk, and Compliance (GRC) solutions, today announced that revenues for the second quarter of 2007 increased 154% over a similar period in 2006. Much of the growth was fueled by key client wins in the manufacturing, government contracting, services, and credit union industries.

“The sales growth we are seeing is a testament to the quality of our product line, and the efforts of all of our employees,” said Alan White, President & CEO. “We have also begun to see the benefits of partnerships and co-marketing activities with a number of consulting firms, including Grant Thornton and several regional firms. The addition of our SAS 70 Essentials product has also given us new revenue opportunities.”

According to Anthony Browne, Executive Vice President & COO at Health Systems International, one of Vital Insight’s newest customers, “Governance Insight will allow us to implement and monitor a stronger internal control environment; Vital Insight was a logical choice for us”.

ABOUT VITAL INSIGHT

Vital Insight is an Austin, Texas-based company founded by experienced entrepreneurs and former Big 4 consultants. The company’s flagship product, Governance Insight, is an easy-to-use, database-driven software application that allows companies to centrally manage and document all processes, risks, and controls associated with Governance, Risk, and Compliance (GRC). Vital Insight’s customers experience significant savings and value-added business intelligence by streamlining their compliance and risk management programs with Governance Insight.
